Dear Mr. Talarico:

I wish to inform you of my deep concern and continuing interest in the effort to place a traffic signal at the corner of Broadway and Lavina Streets. I am the Principal of the Washington Elementary School and I carry a constant concern and fear for the safety of students who walk to this school each day. We have approximately twenty-five to thirty students who must use this intersection at least twice each school day. These students use this corner crossing at the two times of the day when many drivers are going to work in the morning, and then again when they are going home in the afternoon.

Small children are not always as alert as we would have them be. I sincerely hope we can have this traffic signal replaced before we are saddened by an accident at this corner involving a school aged child.

I know that your concern for the safety of our city's children is as great as my concern. I thank you for any help you may be able to give us with this request.

Respectfully,

Dear Mr. O'Neal,

With respect to our discussions regarding putting back the traffic light at Broadway and Lavina, I would like to report to you an incident that validates what West Central people have been trying to say, and which, I hope, will cause you to reconsider your position.

On Thursday, January 7th, at 4:30 p.m. a young girl, aged 13, left one of our programs. Normally to get to her home which is located at the corner of Brackenridge and Ewing, she walked to the light at Broadway and Lavina and crossed there. However, because the light was not there she crossed in front of our center, and was struck by a truck. It was not a pleasant sight to see that youngster lying in the street all bloodied up, nor to think that all this could have been avoided if the light had stayed up.

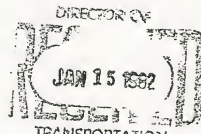

I recognize and commend the city for its attempt to save energy by eliminating unnecessary traffic lights. But as West Central has been saying the danger to life posed by the absence of the traffic light at Broadway and Lavina more than outweighs any savings in energy.

I trust that the traffic light will be replaced so that no other incidents as the one that happened on Thursday will reoccur.

Sincerely,

William J. Moody
